

The NYWEA Western Chapter
Young Professionals Committee is proud to
announce our Spring Technical event:

TOUR OF THE BUFFALO ZOO LIFE SUPPORT SYSTEMS

**Wednesday, May 23, 2007 – 3:30 PM (SHARP)
[MEET AT GATE 1 – SERVICE GATE]**

- FREE -

This will be a behind the scene look at the life support systems for the aquatic features associated with the cichlid, sea lion, and river otter exhibits. Some of the technologies used include UV, protein skimmers, bead filters, ozone generators, etc. This is a fascinating tour showing at how the zoo staff protects the health of these animals while providing an aesthetically pleasing view for the zoo visitors.

**After the tour, all invitees are encouraged to
join us for a social gathering at:**

Gordon's on Delaware

Located at 2263 Delaware Avenue, Buffalo, New York
(only a few blocks from the Buffalo Zoo)

**The Western Chapter Board has graciously offered to sponsor
appetizers for the social gathering**

**This is an exciting opportunity for young wastewater professionals to see
these innovative technologies and to network with their colleagues.**

**The Young Professionals Committee extends the invitation to the
NYWEA Western Chapter Board Members.**

We hope to see you there!

Please RSVP to Joe Fiegl (fieglj@erie.gov) by noon on May 22, 2006.
